

ABOUT SAN DIMAS RAPTOR RESCUE

San Dimas Raptor Rescue, operated by the County of Los Angeles, is dedicated to the rescue, rehabilitation, and release of injured, sick, and orphaned birds of prey including hawks, owls, and falcons.

Our mission is to provide expert care and rehabilitation so each bird can be returned to the wild as quickly and stress-free as possible, while maintaining the highest standards of wildlife care. Raptors play a vital ecological role by helping control rodent populations and maintaining balance within ecosystems. As top predators, they also serve as important indicators of environmental health.

Authorized by the California Department of Fish and Wildlife and the U.S. Fish and Wildlife Service, we are committed to protecting native wildlife across Southern California.

LOS ANGELES COUNTY PARKS FOUNDATION PARTNERSHIP

San Dimas Raptor Rescue rehabilitates hundreds of injured and orphaned raptors each year with the goal of returning them safely to the wild.

We would not be able to support this level of care without the support of the Los Angeles County Parks Foundation, which receives and manages all donations on behalf of the San Dimas Raptor Rescue.

Your support is essential to our mission. All donations are tax-deductible, and by participating in a Los Angeles County Parks Foundation fundraising tournament, you are directly helping fund wildlife rehabilitation and conservation efforts across Southern California.

WHY GOLF FOR RAPTORS?

A golf course is more than fairways and greens - it's a living landscape of trees, wetlands, and open space that can provide critical refuge for wildlife, especially as natural habitats continue to disappear.

**Play with Purpose.
Give Raptors a Second Chance to Fly.**
